

The Empirical - Heuristic Scientific Basis for Chinese Medical Concepts and Therapies

Speaker: Prof Hong Hai,
Adjunct Professor and Senior
Fellow, Institute of Advanced
Studies at Nanyang Technological
University, Singapore

Principles of Chinese Medicine: A Modern Interpretation (Imperial College Press 2015) reinterprets Chinese medicine using the approach of the philosophy of science in a manner that strikes common ground with biomedical science.

The author evaluates the five-element model and the diagnostic-therapeutic paradigm of Chinese medical syndromes, and suggests how these heuristic models can be subjected to clinical trials.

Participating brings you 2 CPD credits

Where: AcuMedic

When: 6pm, Fri 23 Oct

Price: £15

Spaces are limited. To book your place,
